Program Description:

RECENT CHANGES TO STORM WATER AND E&S PLAN REGULATIONS

Are you update to date with recent the storm water regulations? Did you know that regulations covering storm water runoff from construction sites have become more stringent over the last few years?

This presentation will provide an overview of the best management practices for construction site erosion control and introduce you to an organization that promotes erosion control.

Topics covered:

- What is the IECA and what are their goals?
- What is the Mid-Atlantic region doing locally?
- Do you know where dirty water from construction sites goes?
- Best management practices for controlling dirty water and erosion from construction sites.

Mr. Riling will provide slides of recent projects that have implemented erosion control strategies.
